Hello Mark,

There are two sets of certification under 40 C.F.R. § 761.61(a)(3)(i)(E), as well as language under "Certification" in 40 C.F.R. § 761.3, which you reference below. This certification shall be signed by both the property owner as well as the cleanup party. I'm attaching an example from another approval for your reference.

An electronic submittal only to me and R9LandSubmit@epa.gov is preferred.

Thanks!

Good Morning Cynthia,

We are almost ready to submit our Site Investigation Report for Wilmington Marine Services. EPA's conditional approval letter referenced certification language for future submittals. I wanted to make sure we included the correct statement. I found this language under 761.3:

"Under civil and criminal penalties of law for the making or submission of false or fraudulent statements or representations (18 U.S.C. 1001 and 15 U.S.C. 2615), I certify that the information contained in or accompanying this document is true, accurate, and complete. As to the identified section(s) of this document for which I cannot personally verify truth and accuracy, I certify as the company official having supervisory responsibility for the persons who, acting under my direct instructions, made the verification that this information is true, accurate, and complete."

Do you require other language or is this sufficient? Also, would you like a hard copy of the report or is electronic submittal okay? Thanks for your help.
